

Product description

The LE-ZN mechanical anchor consists of a threaded rod with an expansion cone, an expansion sleeve, a hex nut and a washer. The anchor is made of carbon steel. Corrosion protection is ensured by a zinc-plated coating.

Technische omschrijving

- Drill hole diameter: 8 / 10 / 12 / 16 mm
- Anchorage depth: 40 / 60 / 70 / 85 mm
- Drill hole depth: 52 / 74 / 88 / 106 mm
