

Product description

The TDXP is an additional support plate designed to increase the bearing surface of insulation fasteners. Thanks to its smart design, this plate provides improved pressure distribution, preventing damage to insulation material, especially with soft or thick insulation.

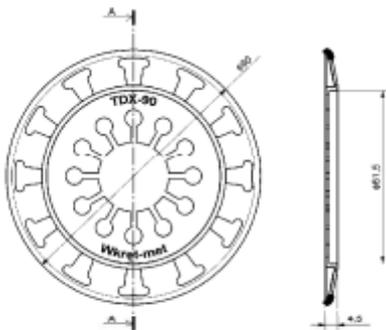

Technical description

- Material: PE
- Fiberglass-reinforced with plate
- Application: for use in combination with insulation plugs with plate and 60 mm (LF, LFN, LTX, WK THERM, ...)

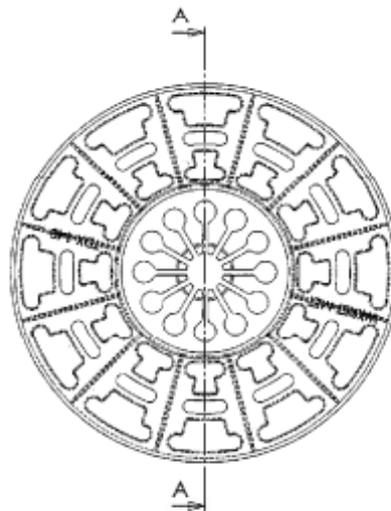

Assortiment

Code	Diameter (mm)	Packaging pces/box
TDXP-90	90 mm	100
TDXP-140	140 mm	200

TDX-P-90/TDX-90

TDX-P-140/TDX-140
