

Product description

The WSPC flange head self-drilling screw is made of hardened carbon steel with a 5 µm galvanized zinc layer. The screw features a flange head, which increases the bearing surface, and a self-drilling tip, making fastening into steel components faster and easier.

Technical description

- Screw diameter: 4.2 mm
- Screw head diameter: 9 mm
- Drilling capacity: ≤ 2 mm
- Drive type: PH-2
- Head height: 2.3 mm
- Head diameter: 11 mm
- Material: Carbon steel
- European Technical Assessment: ETA-15/0578

range

Code	Dimensions (mm)	Packaging (pcs/box)
WSPC-42013	4,2 x 13 mm	1000
WSPC-42016	4,2 x 16 mm	1000
WSPC-42019	4,2 x 19 mm	1000
WSPC-42025	4,2 x 25 mm	500
WSPC-42032	4,2 x 32 mm	500
